<b>Freelance - Yogyakarta</b> <i>Fullstack Developer</i> • Take part in working on the DTEDI website called SILABU, where I worked on several features and pages with other colleagues. I got this project from a lecturer	- Feb 2025

## Organisational Experience

<b>Gadjah Mada Robotic Team - Yogyakarta</b> <i>Vision Programmer</i> Established in 2017, Fukuro is a UGM team focused on researching and developing autonomous soccer robots for national and international competitions. The name "Fukuro," meaning owl in Japanese, symbolizes the team's dedication and the robot's ability to perceive in all directions. • Responsible for developing and optimizing the robot's vision system, focusing on object detection, image processing, and real-time tracking to enhance autonomous decision-making during competitions.	Oct 2024 - Present
<b>Batam Campus Expo 2025 - Yogyakarta</b> <i>Ketua sub Divisi IPTEK</i> Batam Campus Expo is an initiative carried out by students from Batam City who are currently studying at well-known campuses in throughout Indonesia. Batam Campus Expo aims to introduce Higher Education through providing stands from each campus and carrying out other activities such as competitions and talk shows. • Leading the IPTEK division and producing a website that was accessed by a total of 1031 registrants	Oct 2024 - Jan 2025
<b>KOMATIK - Software Research and Development - Yogyakarta</b> <i>Staff</i> Software Research and Development (SRD) is an innovation lab focused on software development, research, and training in the field of software engineering. As a division of KOMATIK, SRD also prepares UGM students for the GEMASTIK competition in the Software Development category. • I as a staff prepare learning materials related to software and teach it to members. At the same time I also prepare for GELATIK	Nov 2024 - Present
<b>Keluarga Mahasiswa Teknik Elektro dan Informatika (KMTEDI) SV UGM - Yogyakarta</b> KMTEDI is a student organization that oversees Electrical and Informatics Engineering students at UGM.	- Present
<b>Google Developer Group on Campus - Yogyakarta</b> <i>Hacker</i> GDGoC UGM is a technology community at Universitas Gadjah Mada dedicated to enhancing students' skills in technology and innovation. It provides a platform for students to learn, collaborate, and develop tech-based projects through workshops, seminars, and hands-on sessions. Supported by Google Developer Groups (GDG), GDGoC UGM aims to inspire and empower students to reach their full potential in the tech industry.	Nov 2024 - Present

- I, along with my team at GDGoC, am preparing for a competition called the Google Solution Challenge, where I serve as a backend developer.

**PKM - Yogyakarta**

Developer

Jan 2025 - Present

PKM is an initiative by the Indonesian Ministry of Education, Culture, Research, and Technology to foster students' creativity, innovation, and research skills.

- As a developer, I created a flood monitoring website that will be integrated with IOT (flood monitoring and relief tools)
